Section 1: Collection Development Policy

Purpose

The purpose of this policy is to establish the guidelines by which the library develops and manages its collections, within budgetary and space limitations.

The primary objective of the library is to provide accessible materials for people of all ages, making available carefully selected materials of purpose and quality that will meet the needs and interests of the community, defined as people who live, work, go to school, or own property in St. Charles Parish. Consideration of all interests, timely responses to user needs, and a wide range of viewpoints are hallmarks of a valuable and successful collection.

Philosophy of Selection

The St. Charles Parish Library endorses the principles documented by the American Library Association in the <u>Library Bill of Rights</u> and the <u>Freedom to Read Statement</u>. The library provides a broad choice of materials to meet the informational, educational, cultural, and recreational needs of its community; while seeking to bring awareness of cultures, traditions, and ideas not represented in the local community.

St. Charles Parish Library is committed to the principles of equity, diversity, and inclusion. The library acknowledges and embraces the strength of our differences and celebrates the different experiences and viewpoints that make up our community. To ensure a collection that reflects these ideals, the library is flexible and conscientious in the selection and evaluation of materials. The library affirms this work is a continuous process and a crucial part to our overall mission.

Books and non-book materials will be added to the collection with the purpose of fulfilling the goal of the service policy and mission, with the imposition of no restrictions other than those intrinsic in this policy. Recognizing the dangers of censorship to the acquisition of knowledge and the freedom of the individual, none will be condoned either by library authority or outside pressure. This also applies to labeling which is an attempt to prejudice and a censor's tool. With the intention of making selection inclusive rather than exclusive, the selection staff will strive to select materials necessary to satisfy the interests, needs, and demands of the community.

A broad selection of circulating print and non-print materials are available to accommodate the diversity of tastes, reading levels, and interests of patrons of all ages. The library cannot possibly acquire all print and non-print materials but employs a policy of selectivity in acquisitions. New formats to be considered for the collection will be evaluated by the Library Director and administrative team of professional librarians before decisions are made to acquire and add them to the library's collection.

The library upholds the rights of all individuals to secure information representing all points of view, even though the content may be controversial or unacceptable to others. Selection of materials for both print and electronic collections is done by professional librarians who hold a master's degree in the field of Library and Information Sciences from an ALA-accredited university. Selection of materials is based upon selection criteria and principle rather than personal opinion.

The Library Bill of Rights and Freedom to Read Statement can be found in Appendix A and Appendix B of this policy.

Selection Criteria

All materials added to the collection, whether purchased or donated, are considered using the criteria listed below. An item does not need to meet every criteria listed, but it should meet several to be added to the collection.

- Appropriateness to library's service policy and mission
- Popular interest
- Contemporary significance
- Permanent value
- Accuracy
- Timeliness or currency of information
- Local emphasis
- Readability or ability to sustain interest
- Treatment of subject, appropriate to age of intended audience, as determined by professional resources and literature
- Reputation of author, publisher, producer, or illustrator
- Creative, literary, or technical quality
- Critical assessments/reviews in a variety of professional journals
- Format and ease of use
- Circulation as monitored through the automated system
- Cost and availability
- Value of resource in relation to its cost
- Relationship to existing materials in collection
- Proper binding to withstand library usage
- Requests by patrons
- Community standards, interests, and needs
- Anticipated use
- Availability elsewhere
- Professional judgment of selecting librarian

Selection Tools

Professional librarians responsible for the selection of library materials use a variety of tools to make decisions regarding their selections. Selection tools include, but are not limited to:

- Reviews from various professional library journals or periodicals such as:
 - o Publishers Weekly
 - o Booklist
 - Library Journal
 - o School Library Journal
 - Video Librarian
- Books in Print information
- Online bookstore information
- Individual expertise of staff
- Recommendations from other libraries and/or librarians
- Recommendations from staff
- Publisher information (websites, catalogs, pamphlets, etc.)
- Standard bibliographies (ex. Core Collection series)
- Professional conferences and exhibits
- Preview of AV materials by selector at trade shows and conferences
- Blogs
- User/patron requests
- Reference logs

Responsibility for Collection

Selection of materials for the collection is delegated to professional library staff under the direction of the library director. All selectors hold a master's degree in library and information science and are highly trained in the selection process for their designated areas.

Requests / Suggestions for Purchase

The library encourages requests and suggestions from the St. Charles Parish Library community in regard to the collection. A request or suggestion allows a patron to request that a particular item or subject be considered for purchase by the library. All requests and suggestions are subject to the same selection criteria as other materials and are not automatically purchased or added to the collection. This process enables the library to

develop a collection which will serve the interests and needs of the community. Requests may be made at any branch or through the online request form on the library website.

Duplication of Material

Multiple copies of materials are purchased in response to user demand as determined by number of requests/holds per item, anticipated popularity and monitoring of the collection. For popular fiction and non-fiction titles the St. Charles Parish Library attempts to maintain a ratio of one copy for every 5 patron holds placed through the automated library system.

Replacements

Replacement of withdrawn materials is not automatic, and the decision to replace an item is based on the selection criteria as well as the following:

- Availability of copies in the system
- Popular interest
- Adequacy of coverage in the subject area
- Cost and availability

Donations

The St. Charles Parish Library accepts donations of certain books and AV materials. The items donated must be appropriate, timely, and in good condition. Donations must meet the same selection criteria as purchased materials and are subject to the following limitations:

- The library does not accept materials with restrictions.
- The library retains unconditional ownership of the gift.
- The library makes the final decision on the use or other disposition of the gift.
- The library reserves the right to decide the conditions of display, housing and access to the materials.

Donations must not represent unnecessary duplication.

The following are examples of items not likely to be put into the collection: Readers Digest condensed books, textbooks, outdated encyclopedias or other reference materials, items that are worn out or in poor condition, and formats or collections no longer being purchased by the library.

Any circulation staff member at any of the branches may physically accept donated items, but only the technical services librarian has the authority to decide whether the items will be included in the collection.

At present some items not added to the collection are donated to the Friends of the St. Charles Parish Library or other non-profit organizations. Items which these organizations will not accept and which cannot be included in the library collection must be discarded.

Gifts are acknowledged only by receipt of a <u>St. Charles Parish Library Donation Acknowledgement Form</u> at the time of donation.

The current St. Charles Parish Library Donation Acknowledgement Form can be found in Appendix D of this policy.

Book Dedications Memorials

Monetary gifts to the collection are welcome and may be designated as book dedications memorials. Donors of the funds may suggest subjects or titles to be acquired with their donation, as well as suggesting home locations for the materials, but the library reserves the right of final decision.

All memorial book dedication items are designated as such with a memorial dedication plate being placed in each item. Notes and subjects are added to the catalogued record of each item so that these items are searchable in the library's online catalog. Memorials Book dedications are acknowledged by a letter from the director to the donor and the family of the person in whose memory honor items are donated.

The current St. Charles Parish Library Memorial Book Dedication Program brochure can be found in Appendix E of this policy.

Patron's Statement of Concern

The library welcomes comments, suggestions, or opinions by patrons regarding appropriateness of materials in the collection. These suggestions will be considered and governed by the Collection Development Policy in making additions or deleting items from the collection. If a patron takes issue with a certain item in the collection, the staff is available to hear concerns and identify alternate materials if possible. If the staff cannot satisfy the patron's concern, then the patron can choose to complete a Patron's Statement of Concern form to be submitted to the library director. This form can be found on the library website or obtained at any branch. In order to submit a Patron's Statement of Concern form, the patron must be at least 18 years of age, reside in St. Charles Parish,

and hold a valid in-parish library card be eligible for a valid in-parish card (i.e., lives, works, goes to school, or owns property in St. Charles Parish). Statements of Concern that do not meet the submission criteria will not be considered. Submitting this form will not result in the immediate removal of the item from public use. To do so would constitute *de facto* censorship. Items will remain available to the public during the review process.

Once the form has been fully completed by the patron and submitted, the director will consult with the librarian responsible for selection of the collection the item is in and, if necessary, form a committee. The library director will send a letter of acknowledgment to the patron upon receiving the form, noting an estimated time frame for the review process, not to exceed 60 days. Should there be a delay in reviewing the request, the patron will be notified and informed of the reason for the delay and given a revised date. The committee will consider the request and examine the item in its entirety before recommending appropriate action to the director. The director or a committee member will notify the patron in writing of the committee's decision. If a patron disagrees with the decision of the committee, an appeal can be made to the library board of control.

If a Statement of Concern claims that an item is sexually explicit, the above-mentioned procedure will be followed but the recommendation of the committee will be submitted to the library board of control by the library director at the next regularly scheduled library board meeting. The library board of control will review the item and determine whether the item meets the definition of sexually explicit material by majority vote in an open meeting and will determine what, if any, action will be taken. In accordance with Article 1, Section 6 of the Library Board Bylaws, the board should not be expected to respond at the same meeting that the Statement of Concern is presented. The board may choose to respond at an appropriate time, no later than two regularly scheduled board meetings. The library director will notify the patron in writing of the library board's decision.

Once an item has been reviewed, the committee's library board's decision on that item is final. will stand for a period of three years, unless there are significant changes made to the Collection Development Policy that would warrant the item being reviewed again. If a patron disagrees with the decision of the committee, an appeal can be made to the library board of control.

The current Statement of Concern Form can be found in Appendix F of this policy.

Collection Maintenance

All library materials are initially processed to ensure their maximum use under normal circumstances. Materials that are checked out by patrons are inspected for damages upon their return to the library. Items that are damaged but still usable are mended and returned to the collection. Patrons are charged damaged fees in accordance with the

<u>Fines & Fees Guidelines</u>. Patrons may be charged a set fee for items they check out that are lost and/or damaged beyond repair.

The current St. Charles Parish Library Fines & Fees Guidelines can be found in Appendix G of this policy.

Weeding and Deselection

Deselection is important in making sure the library's collection remains vital and useful and is an important aspect of collection development. This task takes considerable time and knowledge of the library collection to be done correctly. Librarians responsible for the selection of certain materials are also responsible for the deselection of the same materials. The librarians, under the coordination of the technical services librarian, will evaluate the collection periodically for the purpose of discarding and/or replacing items in poor physical condition; eliminating items with obsolete, misleading or superseded information; or reducing the number of copies of titles whose relevance to the community has lessened. Due to space limitations organized weeding projects are necessary and should take place on a regular basis.

Weeding criteria is based on the CREW method of evaluation developed by Joseph P. Segal. This process (Continuous Review, Evaluation and Weeding), used the following criteria to evaluate a title's current usefulness to the collection:

- M = Misleading (and/or factually inaccurate)
- U = Ugly (worn and beyond repair)
- S = Superseded by a new edition or by a better book on the subject
- T = Trivial (of no discernible literary or scientific merit)
- Y = Your collection has no use for this book (i.e. irrelevant to the needs and interests of the community)

The date of publication, the last date circulated, and the number of circulations in the recent years are also useful indicators of the above factors and will be taken into consideration when determining what materials should be weeded.

The Collection

The St. Charles Parish Library provides materials and services that reflect the diverse informational, educational, and recreational needs of its users. In so doing, the library provides access to content through print, digital, and multimedia resources. The library recognizes that content and medium should be suitably matched, and that patrons have different learning styles and preferences for how they receive information.

The Library recognizes that some materials in the children and teen collections might not be considered appropriate by all adults for all children or teens. Community standards of St. Charles Parish will be considered when acquiring library materials that would be accessible to a minor through donation or purchase. Only each child/teen and their parent or legal guardian can decide what material is suitable for that child/teen to read. Primary responsibility for a minor's reading rests with the parents or legal guardians of that child. The library does not stand *in loco parentis*.

Primary Collections

Fiction and Non-Fiction materials are selected for three primary age groups.

- Children's Collection offers developmentally appropriate materials that meet the informational and recreational needs of children from birth through middle-school ages. In addition, the Children's collection includes materials on child-rearing for parents and caregivers.
- Teen Collection offers developmentally appropriate materials that meet the
 informational and recreational needs of preteens and teenagers from middle
 school through high school ages. In addition, there may be materials which are
 considered adult materials that may be added to this collection to provide access
 for school assignments.
- Adult Collection contains materials for adults aged eighteen and up. In addition, there may be materials that are used by students such as non-fiction and biography books used to research school assignments and books on school reading lists.

Formats

The St. Charles Parish Library collection includes materials in a variety of formats, including but limited to:

- Print materials such as hardcovers, paperbacks, reference materials, magazines, and newspapers
- Non-print materials such as audio and visual formats
- Digital resources such as digital books, audiobooks, audio and visual media, online databases, and digital historical archives
- Other Formats other formats may be added to the collection to meet the needs of the community as determined by the library director and selectors.

Special Collections

Louisiana Collection / St. Charles Parish Collection / Parish Archives

Per parish resolution 3921, adopted June 7, 1993, the St. Charles Parish Library is designated as the "official archival repository of all nonlegal records and reports of the parish". As such, the library maintains a special collection of materials about Louisiana with a primary focus on St. Charles Parish history and genealogy. The genealogy materials are intended to be used as self-service items and are designed for patrons in the initial stages of researching family history and local genealogy. Most of this collection is located at the Hahnville Branch Library, but some materials may be assigned to other

branches as determined by library administration. The Louisiana Collection also houses microfilm from the various United States censuses as well as back issues of local newspapers on microfilm.

As the parish archives, the Library also houses the parish council agendas and video archives of the St. Charles Parish Council meetings. These videos may not be checked out but may be viewed at the Hahnville Branch during regular business hours.

The library generally does not collect items such as photographs, maps, or other memorabilia, as it does not have the means to preserve them or the facilities to store them. The library retains all authority to determine what materials will be added to the collection and any donations to the parish archives must be in accordance with the library's standard donation policy.

Materials for Public Review

In support of area industries, as well as major local and state projects, the library houses a limited number of public review documents. These documents also cover topics under study by various parish task forces or committees and are housed on a temporary basis at various branches throughout the system.

Professional Collection

The Professional Collection is a collection of materials intended for use by library staff only. This collection includes materials of professional nature to enhance the job skills of the staff; materials that may be used in conjunction with planning, promoting and presenting library programs; and materials that address library management topics.

Interlibrary Loans (ILL)

The library's collection is supplemented using Interlibrary Loans (ILL). This is a resource sharing service hosted by the State Library of Louisiana that allows for the sharing of books, articles, and multimedia materials across Louisiana libraries statewide. The State Library of Louisiana also hosts a Talking Books and Braille collection for visually impaired patrons.

Proposal to Eliminate Fees for Photocopies and Prints

In May of 2020, the Library Board approved a temporary waiver of overdue fines and offered a limited number of free prints and photocopies through the end of 2020 to help patrons who were impacted financially by the pandemic. In November 2020, the board approved a proposal to permanently eliminate overdue fines. Fees for prints and photocopies were reinstated in 2021.

The Library administrative team is now proposing that we eliminate fees to patrons for photocopies and prints. Many patrons are still facing economic hardships due to a rising cost of living. Providing free photocopies and prints would be a service that would be greatly beneficial to our patrons and a sign of goodwill and appreciation for the strong support that our community has always shown to our library. In looking at the past five years, revenue from prints and photocopies typically accounts for less than 1/3rd of one percent of the library's total annual revenue (see chart below).

REVENUE FROM PHOTOCOPIES AND PRINTS							
	2023 (Jan-Sep) 2022 2021 2020 2019						
Total Revenue	\$9,143,453	\$8,131,322	\$7,979,137	\$7,414,915	\$6,726,080		
Revenue from							
prints & copies	\$18,613	\$22,051	\$19,347	\$9,440	\$24,288		
Percentage of							
revenue from							
prints and copies	0.20%	0.27%	0.24%	0.13%	0.36%		

We spend more funding on staff time spent collecting and reconciling money each year than we take in. We recently evaluated how much time each branch supervisor spends reconciling money each month, and the cost of that averaged approximately \$23,346 each year. This does not include the time that staff spend collecting the money and the amount of time administrative staff spend counting and preparing money for deposits and transmittals for Finance. Our staff's time could be better spent serving our patrons in other ways if we eliminate fees for photocopies and prints.

Each branch supervisor was asked to share their thoughts on this proposal and the impact it would have on their staff and patrons. Our branch supervisors were all very much in support of this proposal. Below are some of their comments:

- Accessibility is one of the core values of libraries and removing this monetary barrier greatly
 expands how accessible we are to the community we serve. At East, we regularly encounter
 patrons who can't pay for their prints/copies and being able to offer free prints/copies would
 make their lives a lot easier and perhaps give them a brief respite from the shame associated
 with not having the money to pay for things they need. This would be a really kind and
 compassionate thing we could offer to our community.
- Removing fees for prints/copies would cut down on circulation staff spending time handling
 money and inputting transactions into Square and Zettle. While I don't feel that East's circulation
 staff is spending a disproportionate amount of time handling money collected from these
 transactions, they do occasionally have to wait for patrons to make a trip out to their car to
 collect change, to count out money, or to settle some issue with their card, and eliminating fees
 would eliminate this time spent waiting entirely.

- Adding another free service would make the library even more appealing, especially since we get
 so much computer usage already. Beyond that, it allows patrons to have a real sense of
 ownership of the library being able to say "my library allows people to print for free" would
 allow patrons to have a stronger connection with us, while being a great truth that could
 encourage others to patronize our library.
- We spend anywhere from 45 minutes to an hour per day counting the money drawer, doing the daily money sheet, reconciling numbers of copies and prints from xerox and LPT to square, and inputting information into the reconciliation sheet. I believe that if we stopped charging for copies that it would draw a larger crowd for printing purposes. Word will get around that we are not charging, and it may attract new patrons, which is a great thing!
- It does have an impact on patrons, especially when they can't afford it, don't have enough to pay for all, or don't have the correct amount. Ex. (a 20.00 bill for 5.00 worth of copies) this is especially difficult for smaller branches that empty their drawer at the end of the month. A patron has to leave and go get change, and if it's at the end of the day you are waiting for them to return. I believe the impact on patrons would be in some cases immense. Overall, it would be an added service to each of our communities and have a positive effect.
- It makes access to these services more equitable for people who are working with limited means. There are also times that a patron is making one or two copies and doesn't have any change and ends up adding 80-90 cents as a donation just to be able to use their card, and I know that's frustrating for them.
- I think overall making this change would take a lot of stress and frustration out of the workday for much of the staff and it would free up time for supervisors to do other tasks. It would also be just another way for us to signal to our community that we're a place that anyone can come to do simple tasks like printing, photocopying, getting information, etc. without hassle or frustration and without having to have any money to do so.
- I am fully in favor of eliminating fees for photocopies and printing. This would be extremely beneficial for the majority of our patrons and promote goodwill with us in the community. For patrons who may *insist* on paying, that money can be donated and would benefit us more than how we intake fees currently. I think it's worth noting that we have already done this successfully coming back from the pandemic.
- Frequently, patrons need to leave to go get change when they are ready to pick up their
 prints/copies. This can cause confusion for staff assisting them and can be frustrating for patrons
 who are trying to get their documents and go. Not to mention if someone is elderly or struggles
 with a disability, walking out to the parking lot or driving to a store/ATM can be difficult or just
 not feasible.
- Our patrons are not printing so much at a time that this would be an issue of anyone "abusing the privilege" by frequently printing/copying large volumes. It is extremely rare that someone needs to print or make hundreds of copies.
- I have tons of projects (as do other staff) I would like to dedicate more time to, as well as training, and checking in with my staff. This is difficult when I spend entire days in my office reconciling money or time addressing mistakes with copies and prints instead of more important training items. The end of month is particularly time-consuming when I am trying to make change, wrap coins, recount for accuracy, double-check my Daily Reconciliation spreadsheet, and complete transmittals.

	St. Charles Parish Library Board of Control
Attest:	
Leann C. Benedict	
Library Director	

October 30, 2023

Dear Members of the Library Board of Control:

Presented herein for your review, revision, and adoption is the library's proposed consolidated budget for fiscal year 2024, which begins January 1, 2024, and ends December 31, 2024. The budget meeting is scheduled for 6:00 p.m., Tuesday, November 14, 2023, in Council Chambers at the Courthouse in Hahnville.

As stated in the Library Board's Service Policy, the St. Charles Parish Library strives "to provide courteous service of excellent quality patterned to satisfy the needs and interests of the people of the parish . . . and to reflect the expressed desires and comments of the people."

The budget is the annual plan that is adopted to carry out the goals set out in that service policy. The budget supports this through its funding of productive staff, useful materials, and suitable facilities. The budget should build on existing services and enhance them when feasible and desirable.

The budget is fiscally conservative in that expenditures are budgeted within revenues, as required by the Local Government Budget Act. Revenues are estimated realistically in order to avoid unexpected shortfalls. Projected major current revenues (which include ad valorem taxes, state revenue sharing, and interest earnings) should be adequate to fund ongoing operating services.

Capital Projects funded in this budget include, but are not limited to:

- Architectural fees in anticipation of beginning plans for a new Hahnville Branch and funds towards construction of a new Hahnville Branch.
- Purchase of at least one new library vehicle, which would be used for outreach services, travel between branches by staff, and for staff to use when attending continuing education workshops.
- Possible replacement of the star system projector in the planetarium.
- Replacing the chillers at East (this project is already in progress).
- Possible replacement of HVAC systems at several branches.
- Renovating and updating the public restrooms at the East Regional Library.
- Replacing the carpet and flooring at the St. Rose Branch and in the meeting room area of the East Regional Library.

Financing for these projects is provided by the library's fund balance and anticipated revenues. Per the library's service policy, the ending fund balance should leave approximately 12 months' worth of operating funds in reserves.

The personnel section of the budget includes a 3.0% cost of living increase in the pay scale. The Parish typically uses the *April-to-April CPI for All Urban Consumers* to determine cost of living

adjustments (COLA), and that index showed a 4.9% increase this year. The library generally follows what the Parish does regarding cost-of-living adjustments and this year they intend to give parish employees a 3% COLA adjustment. Our staff are dedicated to providing a high level of services and programs to our patrons. To maintain morale and keep the library's salary scale competitive it is my recommendation that we approve the 3.0% cost of living increase for 2024. The proposed pay scales are included in the notes following the proposed budget itself. Staff will receive step increases based on merit.

When costs for the capital projects are excluded, personnel costs remain at approximately 65% of the remaining operating budget, a relatively low figure since libraries are very labor-intensive agencies. Direct employer payments for employee benefits also remain at about 24% of personnel costs. Indirect employee benefit costs (for annual, sick, and personal leave, and holidays) are also significant but more difficult to calculate.

The estimated fund balance for the beginning of 2024 is \$10,841,866. The total amount of estimated new revenues to be collected in 2024 is \$9,663,955. Together, the estimated amount of funds that will actually be available to the library for use in 2024 is \$20,505,821. The total amount of estimated expenditures for 2024 is \$15,770,120. If that total is budgeted and expended, the library will have a projected ending fund balance of \$4,735,701 at the end of 2024.

Notes explaining specific line items in greater detail are contained in the **Budget Notes**. I will be happy to provide further information or assistance in interpreting specific items within the budget so please let me know if you have any questions.

Sincerely,

Leann C. Benedict

2024 Proposed Budget

NOTES

NOTES TO THE 2024 BUDGET: REVENUES

Line 01: The projected **Fund Balance from Previous Year** is based on actual revenues and expenditures as of June 30, 2023, and projected expenditures through the remainder of the year. It does not include projected new revenues from the 2023 tax roll. Those are included on Line 02 as new receipts for 2024.

According to the comprehensive annual financial report prepared by the Finance Department, the library had a fund balance of \$11,245,711 as of the end of 2022. As of 6/30/23, the library's revenues totaled \$8,527,307 and expenditures totaled \$3,424,282. We are estimating total expenditures for 2023 to be approximately 8.9 million dollars, which includes expenditures paid by the library for Hurricane Ida building repairs. This leaves an anticipated ending fund balance of approximately \$10,841,866.

Line 02: Revenues listed on Line 02 are estimates of **Ad Valorem Taxes** to be collected for the library on the 2023 tax roll. These funds will be collected primarily in 2024.

The estimate is based on reports provided by the Finance Department. In August 2020, the voters approved a continuation of the library millage for 10 years at 4.53 mills. For the past two years millage was collected at the full 4.53 mills. This year, the parish council has rolled the library millage back to a rate of 4.08 mills. Based on projections from the Finance department, revenues from Ad Valorem taxes are expected to be approximately \$8,994,500.

- Line 03: The library receives reimbursement for Internet and data lines each year through the **FCC Universal Service Program**, also known as eRate.
- Line 04: This line shows the amount of anticipated **State Revenue Sharing** based on figures from the Parish Finance Department. The Office of the State Treasurer determines the amount of revenue sharing funds each eligible recipient body is to receive. Eligible tax recipient bodies are those supported by ad valorem taxes and whose millages are included in the Revenue Sharing Act. The amount listed is what is due to the library after statutory deductions.
- Line 05: **Photocopy Receipts** No change.
- Line 06: **Miscellaneous Revenues** includes revenue from planetarium fees, printing fees, flash drive sales, and any other miscellaneous revenues. No change.
- Line 07: **Fines (Books)** includes revenue from fines paid for lost or damaged materials, library card replacements, and out-of-parish cards. No amount is budgeted because they are generally very modest and should not be counted on as significant sources of revenue.
- Line 08: **Interest Earnings** are based on estimates provided by the Finance Department.
- Line 09: **Insurance Refunds/Proceeds** The library is currently awaiting reimbursements from approximately 1.2 million dollars in expenditures from building insurance for West Regional Library Hurricane

Ida repairs. No amount is budgeted as we do not know when those funds will be released.

- Line 10: No amount is budgeted for **Gifts and Donations** because they are generally very modest and should not be counted on as significant sources of revenue.
- Line 11: **TOTAL NEW RECEIPTS** are projected new revenues to be earned in 2024.
- Line 12: TOTAL NEW RECEIPTS AND FUND BALANCE FROM THE PREVIOUS YEAR.

NOTES TO THE 2024 BUDGET: EXPENDITURES

Lines 13-17: The Parish uses the April-to-April *CPI for All Urban Consumers* to determine cost of living increases. That index showed a 4.9 % increase this year. It is my recommendation that a 3.0% cost of living adjustment be approved for library employees as this is what the parish is budgeting for parish employees.

Budgeted personnel salaries reflect standard one-step increases of 2% for most employees and a few possible additional step increases, which are given for exceptional performance and/or increased responsibilities. A small amount is also set aside for possible mid-year merit increases.

- Line 13 Library Director's salary. A standard one-step increase is budgeted.
- Line 14 Salaries for professional librarians.
- Line 15 Salaries for all other full-time employees. Includes six possible new positions to assist with outreach, programming, public relations, and training. As programming and outreach continue to grow, more staff are needed to continue offering existing services and add new ones.
- Line 16 Wages for all part-time employees. Includes two possible new part-time circulation assistant positions.
- Line 17 Total salaries and wages.

Entry level part-time assistants must have a high school diploma or equivalent. Performs routine tasks under close supervision. Step 3 is normally reached after 2-3 years of experience, depending upon the amount of time worked, the level of difficulty of tasks performed, and the quality of performance. Progression to Steps 4 and higher depend upon years of experience (including amount of time worked), the performance of specially assigned tasks of increasing levels of difficulty and responsibility, and the quality of performance. The 2023 budget had 20-steps but we recommend increasing the part-time scale to 30 steps to match the full-time scale.

Increase based on recommendations from Computer Services.

Half of the chillers at the East Regional Library are in the process of being replaced but with time delays that could be delayed into 2024. The systems' digital projector and computer system are more likely to fail now more than ever, and replacement parts are hard to find.
